2025 USA II-Constitution & Equity Reparation Treaty.

Mankind Renaissance.

The Renaissance Party: 1 Natural Law.

Mankind Renaissance strives to bring as much ancient knowledge as possible to learn from it, and fully re-awakening Western Civilization. Removing the corruption and restoring its lost principles. Standard of living has quickly deteriorated and incoming economic cataclysm will cause a massive social-structure collapse (capacity for development). Mankind Renaissance most important asset is broad base of knowledge and self-discipline to solve complex problems by examining them from different disciplines. Always learning to remove the blinders of one way of thinking, ignorance brings chaos and unquestioning behavior. A wider perspective on things and abilities to succeed, a polymath, not complacency. The rights of individuals, from all walks of life, intrinsic to human nature that can be deduced from universal norms of rights and duties. Natural law itself evolves throughout positive legislation towards the peace of civil society. Alpha Universal Constitution (USA II-Constitution) / Exo-politics, the discovery of a new sense of life, collective consciousness evolution; Homo-Universalis. In political science, this means the dissolution of status quo. All man are born free and equal, immutability of the natural law which all nations must observe, international public law. The subjugation left many citizens ignorant (condemned to mediocrity) and unable to acquire knowledge because misunderstanding – Law of the Sea (liberty) & Law of the Land (freedom and allodial titles). Average poor citizens must have an introspection-reflection regarding our government’s laws, acting beyond its authority (abuse of power), assessing the threat (politicians and elite of humanity are clinically insane) and solutions (propel ideas that move forward generations). Average poor American citizens must recapture our republic because it won’t self-correct. The government focus on special interest over the solutions of average American citizens’ needs. Everyone has the natural right to private property as the right to the fruits of their labor, established under the rules of commutative justice such equality of value and price determined cost, supply and demand; conditions of a free exchange market and stability of money. Private monopolies are usurpations in the form of privileges, US oligarchs & US Federal Corporation (seizure of power), which monopolize capital. Tyrannical Democrats and Republicans “breach of peace” in the legislatures sides with the military-industrial complex (compartmentalization-strategy) endless war, unconstitutional. The fall of men added the political authority, unable to rule themselves, by a social contract (an act of transfer of political authority). By consent in the interest of the more perfect and more efficient realization of the common good.

All form of government are man-made law limited by natural law (inalienable right of the people) to resist an act of tyranny form (lawful revolution).

Those of weaker minds and lower civilization are destined to hereditary status of servitude (loss generation). Chemically modifications to the DNA, can impact risk for mental health disorders (long-lasting degeneration of the citizens). Freedom-virtue is autonomous in thoughts (internal construct), then action about your personal independence (private property). Total mind-subjugation that perpetuate in government due to the control of the masses being governed, given up their children's freedom. The battle for your mind is real, so many lies and so confused truths, "Master the Human Domain" – controlled free speech (monopoly of communication) to enslaved the mind of American society. Free-will ability to choose different course of action to achieve the pursuit of happiness and the interest of future generations. Homo-sapiens' righteousness-in-se mindset unto collectively exhaustive making decision as reformation to Western Civilization's state of affairs (period of great uncertainty). The Neuroscience of Trust & The Seven Principles of Equity (the idea that we learn to self-defense, sustain-itself and be productive to society & advocate racial equity, freedom, justice and peace) to rebirth humanism with synchronize movements against incoming One World Government (WHO Pandemic Treaty & CBDCs). Destructive course wreaking-havoc against humanity and intrusion into private citizens' economic affairs. USA through Equity Reparation Treaty (healing resentment) & Reconstruction (social reform). The time is now for average poor citizens to believe in themselves, and steadfast cooperation in promoting such government reform – USA II-Constitution (restoring the republic). Virtuous-citizenry ability to vote out corrupt-politicians. Corrective action is up to American society. Bring to life The Renaissance Party, make the change!

The Renaissance Party: 2 Government Reform.

"The ultimate test of a moral society is the kind of world that it leaves to its children." Dietrich Bonhoeffer.

Education Resurgence Reform: USA Education Think Unique – First World Educational Institute. Policy failures resistant to change (non achievement) will be ended, and replace with constructive management to deliver evidence of success. New mind and body curriculum, master of their own learning who can think for themselves, and take an active part in the political life of the new republic. Deepest concerns of the young about the way we are living. Teachers' inappropriate fixation conduct based on questioning sexual orientation or gender identity is sexual harassment, accountability.

"Illinois bill wants make it 'child abuse' for parents to object to gender transitioning of kids: Legislates for the State to take kids away from parents if they do not comply with 'gender affirming services.'" Steve Watson. Unconstitutional.

"Berlin rows back on daycare 'sex-rooms' for toddlers to masturbate in privacy." Thomas Brooke.

Who should decide when and how to discuss issues like sex and gender with your children?
American family structure – Parents responsible for providing moral training to their children
(circumcision of the heart).

“O Ye who believe! Fear Allah and speak a straight speech.” Qur’an 33:70.

“It doesn’t matter who you used to be; what matters is who you decide to be today – all that you are capable of being...” Brittany Josephina. “Out of your vulnerabilities, will come your strength.” Sigmund Freud.

“The inference to which we are brought is, that the causes of faction cannot be removed...” James Madison.

“Why do you look at the speck of sawdust in your brother’s eye and pay no attention to the plank in your own eye.” Luke 6:39-42.

Abortion Reform: Not considered murder as the fetus is not yet human, not until ‘human newborn’ (self-consciousness awareness) – Unborn fetus has no constitutional rights until the third trimester (24-28 weeks). Attempting to get the law overturned will grossly infringed the woman ‘personal domain’ (human right), such aggression because morally convictions (belief) in others free will. Governing her womb (inner sanctum) is an overreach of authority and the remedy sought cannot permit this revulsion intrusion of her body autonomy that prevails over conscience. Repeating abortions become a pattern implied malice aforethought where the woman then become a feticide (fetal homicide) including the man (criminal transferred intent) as a whole (gender equality). Restriction on the third abortion (recurring problem) – is not to legislate morality but hold accountable deviant behavior – sterilization of both parents. Constitutional rights balance between the woman and the fetus inherent newborn right (minority report).

“That’s the story of socialism!’: Rand Paul makes emphatic argument against price controls.” Forbes Breaking News /YouTuber (FEB 2024): “...shortage of drugs that we’ve seen in the last few years involves price controls that drive out production of the drug. One reason the United States leads in pharmaceutical innovation is because – market based pricing and rewarded innovators ...how much profit they should make – the list price is much different than the net price...” Incorrect. Single-Payer going forward.

“The only Rx for drug shortages is competition.” Thomas McArdle /theepochtimes.com (FEB 2024): “...Price controls lead to shortages – when you deny manufacturers the ability to make profits in taking advantage of demand, you make delivery of new supply difficult ...Treating healthcare as a right is a deceptive description of what is actually the removal of the profit motive from the production and delivery of things and services of value – expect to be compensated based on market value – otherwise they will devote their abilities elsewhere ...The Hatch-Waxman Act of 1984 vastly expanded the production and accessibility of generic medicines by shrinking regulatory

delays in the approval of generic versions of patented drugs – The main driver was lots of competition among generics – (FDA) has a backlog of thousands of applications from generic manufactures awaiting approval, and the wait time is years ...The way for the maximum number of patients to receive the highest quality of care, including highly expensive, innovative drugs, is to accept the real world of profit and price as necessary mechanisms of distribution in a free society...” MIXTURE.

“Repurposing commonly used supplements such as vitamin D, which is known to be safe and effective for other ailments, presents an opportunity to continue developing other therapies needed to treat type 1 diabetes.” Dr. Charles Schleien.

Healthcare Reform: USA Healthcare System – First World Healthcare – From Birth to Death (Cremation). Legally mandated price tags – Single Payer, the Government – that exert control over healthcare cost (after \$7,200. Copay 25%). Null and void health insurance industries. Advancing systematic drug repurposing (additional uses for other diseases) to assess outcomes.

“Scientists discover toxic microplastics in every human placenta tested in study: Such widespread microplastic prevalence in human tissue could explain the puzzling rise in colon cancer among younger people.” Naveen Athrappully.

“Is it the hip or the spine causing pain?” Nabil Ebraheim /YouTuber (MAR 2024).

“Unveiling the link: Smoking and its detrimental effects on low back pain.” Nabil Ebraheim /medium.com (MAR 2024): “...cause blood vessels to constrict, diminishing the flow of oxygen and nutrients essential for the repair and maintenance of spinal tissues – increasing the likelihood of disc herniation – and risks of osteoporosis...”

“A significant number of US 12th-graders report using delta-8 products, study says, and it may be a public health concern.” Jen Christensen. May impair thinking, memory, and learning.

“Shortness of breath – Flow volume loop.” MedCram – Medical Lectures Explained Clearly /YouTuber (MAR 2024): “...Pulmonary Function Test – Tracheal Stenosis...”

Social Security Reform: Prohibit USA Congress borrow from Social Security Trust Fund, and cut 50% of Social Security to recipients that live outside of USA Jurisdiction (liquity-loss). No more spouse or children collect benefits including military.

Immigration Reform: “Idiotic non-sense” response to foreign troops invading American soil, coming from complacent individuals; clueless of the multi-dimensions’ warfare mist present in the world’s stage. American citizens need to be resilient enforcing our country sovereignty through secure border with physical wall / barriers, and technologies to avoid this distress from happening again. Deportation will be enforced after Amnesty end, and borders secured under military zone (AI powered robot guns – lethal force authorized). Null and void ‘chain migration’ – citizen neither

sponsor – nor anchor babies. Our society has been divided, our government officials betrayed their oaths and became corrupted. The crippling depression (ability to work and live normally) of millions of layoffs, and food shortages will amplify humanitarian disaster. For invasion, weaken your enemy before attack them. Start looking (clinic observation) at the reality of the world you live in because you will need to act to take back our sovereignty for future generations – Natural Selection (more likely to survive).

“Any group of human beings who are supposedly in a free society and who have a leader (or a council of people who lead), assigned by that group to make decisions for the common interests of the group, must rely on their own “self-regulation”, above and beyond the leaders’ government, in order to survive.” Todd Hayen.

“Neoliberalism has run its course, resulting in the impoverishment of large sections of the population. But to dampen dissent and lower expectations, the levels of personal freedom we have been used to will not be tolerated. This means that the wider population will be subjected to the discipline of an emerging surveillance state ...Tracked, traced and chipped – for your own benefit. Corporations accessing all of our personal data, right down to our DNA.” Colin Todhunter.

“In almost every act of our daily lives, whether in the sphere of politics or business, in our social conduct or our ethical thinking, we are dominated by the relatively small number of persons ...It is they who pull the wires which control the public mind.” Edward Bernays.

“Western leaders are experiencing two stunning events: defeat in Ukraine, genocide in Palestine. The first is humiliating, the other shameful ...supported by their nations’ political elites – are judicative of a behavior pattern that has parted ways with reality.” Michael Brenner.

“The time for action approaches and their “experiments” must be terminated, if we hope to have any semblance of the Republic we were given 235 years ago.” Jim Quinn.

“Forces beyond our control will continue to victimize us if we let them. The simple answer is to resist. I know that there are few who really understand it, that it has to come a part in order to rebuild – a new future, or we won’t have one.” TL Davis.

*“Majority of people don’t trust MSM news.” Ad Washbro /activistpost.com (MAR 2024):
“...government – funded propaganda machine – more interested in pandering to government interests and corporations than the well-being of the general public ...alternative news sites is something that needs to be eliminated from the Internet through draconian United Nations controlled censorship – mainstream media knows it’s no longer trusted and fears the feisty independent competition of its new alt media rivals...”*

“America is following in China’s foot steps. Here’s how we stop it.” Tucker Carlson /YouTuber (FEB 2024): “Xi Van Fleet ...this is absolutely a full-blown Communist Revolution and the goal is very

simple it's just one, destroy this country – if you want to save this country and save it for your children – you have to get involved, you have to fight back as your life depend on it...”

“This is the state of the union that no is talking about – not the politicians, not the courts, and not Congress: the government’s power grabs are growing bolder, while the rights of the citizenry continue to be trampled underfoot ...This sorry truth has persisted no matter which party has controlled Congress or the White House.” John W Whitehead.

“The shift from a high-trust society to a low-trust society is consequential economically, politically and socially ...Faced with incompetent, unaccountable, corrupt bureaucracies and a culture overflowing with scams, frauds, imposters and get rich quick schemes, people give-up and drop-out ...A low-trust society is an impoverished society, economically stagnant and socially thread-bare.” Charles Hugh Smith.

“The Great Replacement loophole: Illegal immigrants score 5-year work benefit while “waiting” for deportation, asylum.” Tyler Durden /zerohedge.com (MAR 2024): “...the post-pandemic job gains the administration continuously brags about have gone foreign-born workers – a flood of ultra-cheap illegal immigrant workers – tend to skew younger ...critical component of the wage-price spiral – and thus have zero wage bargaining options ...This is on top of the labor revolution that will kick in once AI leads to mass layoffs – workers hoping to trade down to lower paying jobs will discover – have already taken...”

“Nearly 107 million Americans do not have a job right now.” Michael Snyder.

“Documentary: Deception at our Southern Border.” Neenah Payne /activistpost.com (MAR 2024): “...Biden unleashed the worst illegal mass immigration crisis ever to hit America. It allows a growing number of men of military age (enemy combatants) entry into in the US. If that not treason, what is? ...China’s threat to our power grid and water supply...”

“China planted mystery devices on cranes used in US ports, could seize control remotely; Congressional Letter: The devices ‘do not contribute to the operation of the STS cranes or matitime infrastructure and are not part of any existing contract’, the letter said.” Andrew Thornebrooke. 200 China manufactured cranes operating across US maritime critical infrastructure – vulnerable to exploitation.

“Judge blocks US administration from illegally diverting border-wall funds: The judge found that the Biden administration cannot ignore federal law.” Caden Pearsen. Administrative Procedure Act.

“No borders? No America.” Justin Smith /theburningplatform.com (MAR 2024): “Americans had better act soon – intentionally or not, it makes America unsafe and sets in motion the Great Replacement – the US borders simply no longer exist ...These illegals don’t want to be citizens; they don’t assimilate anymore – At somepoint, anyone having a hand in the most massive betrayal of America in US history must be made to face a day of reckoning, regardless of what form it may

take – those radicals who seek to fundamentally transform America and end our republic ...Don't let this be how America ends..."

"First of all, birthright citizenship, which is the law in the US must be abolished ...Essentially, citizenship needs to be earned rather than entitled, especially at birth." "Therefore, denying entry to such non-citizens is an absolutely legitimate use of government power, as the exercise of such power violates the fundamental rights of nobody." Krishna Chandrasekaran.

"It is not the strongest or the most intelligent who will survive but those who can best manage change." Charles Darwin.

"County says burning trash "emitless green-house gases that landfills and minimizes pollution." BN Frank. "We're pushed into making these hypothetical comparisons between landfills and trash incinerators when there's an actual garbage burner in downtown Minneapolis that's harming people's health." Frempong-Longdon.

USA Environmental Policy Reform: Nationalize our natural resources, future generations interest. Reconstruction: New infrastructure and structural engineering investment in the development of USA economy and infrastructure workforce development – Job placement.

"Who controls the food supply controls the people; who controls the energy can control whole countries; who control money can control the world." Henry Kissinger, 1970. "...or use regulation to totally shift the demand." Bill Gates, Technology Review (Feb 2021). Bill Gates is America's biggest owner of farmland. The meat shortages in the retail outlets are to end livestock production (animal agriculture), welcome to culture meat (in vitro cell culture of animal cells). THREAT TO HUMANITY.

Criminal Justice Reform: 24/7 Custodial model of incarceration – based on deterrence and retribution only – Victimology public policy. Referendum Vote: Null and void 'bail' totally – 3 day period to see a judge – crime to jail (Japan) & Cruel Unusual Punishment Clause are in harmony.

"Chicago criminals out on probation/parole/pretrial release continue violence in 2024 – Wirepoints." Ted Dabrowski and John Klinger /wirepoints.org (FEB 2024): "...In September 2023, Illinois became the first state in the country to eliminate cash bail altogether, while the law also reduced the types of crimes for which defendants could be detained before their trial – Major crimes in 2023 were up over by 16% over 2022..."

Judicial Reform: Null and void 'judicial discretion' – violation of equality, judges need to adhere to strict constitutional, not ideologies against reason and evidence (activists). Impeachment on all level of judicial systems – Judges that omit exculpatory evidence (suppressed evidence).

Legislative Reform: Terms Limits.

"Upwards of 80% of Americans favor term limits, yet entrenched politicians in Congress – and the lobbyists who need them to advance their special interests – have found ways of quashing them

time after time ...we must introduce an amendment to the US Constitution to impose term limits on members of Congress.” Gerrick Wilkins. Correct.

The severe loss of prestige of the federal and state governments. The DNC and GOP control the primary election (illusion of choice in the elections). The USA government need reorganization and new average American citizens on public administration (continuity of government). The Equal Protection Clause – “nor shall any person be denied the enjoyment of civil or political rights”. Build in righteousness and hold ourselves apart from violence. Corrupt political system dominated by billionares (Plutocracy). American citizens devolving into subjects – Educate yourself on how the government affects the lives of future generations.

“Mr. Kennedy has called ballot access laws for independent and third-party candidates “among the worst forms of voter suppression in American today” and said that State Officials should work together to “streamline and standardize ballot access procedures.” Jeff Louderback. CORRECT!

“You must watch this debate for alternative presidential candidates.” Kim Iversen /YouTuber (FEB 2024): “Free & Equal Elections Foundation – founder Christina Tobin – freeandequal.org...” EXCELLENT! Diane Sare must return!

“NYC’s non-citizen voting law struck down by Appeals Court.” Tyler Durden.

“...we have put together I think the most extensive and inclusive voter fraud organization in the history of American politics.” Joe Biden. FactCheck.org: Out of context. Example of mind-subjugation from technocrats.

“Forensic-audit (scrutiny scientific data) is a validated truth not voter suppression, the truth without validation is relative to individual ethics.” Allan Echavarria Diaz.

Electoral Law Reform: Federal Voter ID requirement – mission to secure transparency and auditability elections. Constitutional glitch, the ‘contingent election’ continued to shape the country politics. Referendum Vote: Direct popular vote – “One State, One Vote” – no more Electors’ legal prerogative to vote under circumstances that change the outcome dictated by general elections. Democracy strength relayed on elections integrity in the vote count. In a free society, the citizens’ right of observing elected officials, and the vote-procedure since such records are public domain – especially observing counting of the votes.

Department of Defense – Pentagon Reform: Subordination of the military to civil authority, USA II-Constitution/Exo-politic; use civilian products as substitution for import (diversification) and Defense-industry totally import independent (self-sufficient). No more Black Budget nor Contractors. Governments of Israel and India access to top-secret satellite data and sensor data – treason, are null and void. Remove India & Israel from JEDI.

Pentagon's use of the secretive 127e authority (design to prevent oversight) – arms, trains, and provide intelligence to foreign forces – risks involving USA in human right abuses and potentially violates the USA Constitution (unlawful use of force). The senseless sacrifice of human life for the sake of power. Civilian authority over military, a fundamental principle of American democracy. Military coercion of Americans citizens will be considered military coup.

Pentagon's 'Counter-Intelligence Field Activity' (CIFA) was caught running a de-facto domestic surveillance program known as 'Threat and Local Observation Notice' (TALON) – monitored antiwar or other protests (DoD-Directive 5200.27). Unconstitutional Treason.

“Mankind Renaissance is the greatest achievement in modern history such ability to discern truth, to make informed decision-making, to preserve justice and freedom; survival-reformation as “Seven Principles of Equity”, “Neuroscience of Trust”, and “Generative Principle” propelling human evolution into advance-civilization without cognitive distortions.” Allan Echavarria Diaz.

Universal Alpha Constitution: Homo-Universalis’ Flagship! Holy Father, into thy hands, it is finished! *“We humans make plans, but the LORD has the final word.” Proverbs 16:1. “Glory to GOD in the highest, and on Earth peace, to people of good will.” Luke 2:14.*

Renaissance Party political campaign assertion mutual-defense – Alpha Space Defense Earth Federation (ASDEF). Mankind subject to slaughter by EMEs? Only hope may come from extra-terrestrial intervention?

Intersectional white supremacy has and will always bond Democrats and Republicans. The Wilmington Insurrection of 1898, massacre by white supremacy overthrow the government elected (African Americans). USA Constitution – social contract violation & war crime.

“Master and Commander: The Biden dogs accused of dozens of additional attacks at White House.” Jonathan Turley /jonathanturley.org (FEB 2024): “...Commander is responsible for at least 24 attacks – escape such liability due to the fact that this is the official residence ...In fact, you are subject to strick liability whenever you know or have reason to know of the vicious propensity of your animal – with this history of dogs attacks (with successive pets)...”

Prosecutor Victor Shokin investigated the case before his termination – Biden, who threatened to withhold \$1 billion in USaid from Ukraine – Biden later bragged about the firing during a 2018 appearance at the Council on Foreign Relations ...Direct payment to Joe Biden – Oversight Committee...” Influence Peddling Corruption.

The Federal Reserve Act of 1913 Treaty must be null and void, no more enslaved to debt. Enforce the separation of banking and finance. This time, accelerated crash of stocks and stagflation, destroying our financial system and currency to force One World Government digital currency on the masses. Unchallenged massive-deficit spending on wars, excessive debt being made with zero

regards to future generations. American economic inequality, highest in the USA than other advanced countries, affects all racial and ethnic groups. The system is rigged for the top 1 percent – Plutocracy. Financial reset imminent, country is not producing enough to pay its debts, the reason the economy destabilizes is the Debt to GDP ratio.

“In a system rigged to maximize the profit and power of the few at the expense of the many, nothing works because the system is no longer capable of self-correction ...Power asymmetry is my term for the structural inequality and bondage that characterize the global status quo.” Charles Hugh Smith.

The US is the world’s largest debtor – American society consume more than we produce. China’s three trillion of foreign exchanges reserves, majority being in US dollars, kill switch. The Federal Reserve holding over \$2.3T in cash (kill switch) & 7.7T bank bailout (wealth transfer) as millions fell into poverty. No State in the US has fully funded its pension plans, blatant corruption against working families. Collapse of sovereign currencies, then, introduction of programmable central bank digital currencies (CBDCs) – new system of control and mass poverty. Earned income-job (poor average people), Portfolio income-capital gains (middle class), and Passive-income is never taxed – Elite don’t have jobs but assets (global phenomenon). US debt is at \$90 trillion, which together with \$169T in US unfunded liabilities totals \$259T (hundreds of generations to repay) – The value of all US assets combined worth \$193T – US beyond BANKRUPT. Assumption of people accepting CBDCs’ peaceful enslavement is incorrect – there’s no soft landing nor impunity. Globalist elite psychopaths enforcing dystopia will be sobering incoming hot Washington Military Tribunals or Fire.

WARNING: Latent ‘Silent’ Stagflation (DEC 2022) become undeniable Q3 2023 – Apocalypse 3th Horse. SUSTAIN. Extreme poverty for poor average people – make ready coming in-fast.

WARNING: Global Deflationary Depression FEB 2024. SUSTAIN. End of US petrodollar global currency reserve, geopolitical implications and enormous disinflationary effects in the domestic US economy. Rapid devaluation in their purchasing power, which will be reflected in higher prices. The risks ahead are too dangerous to ignore, and they cannot be stopped. Exchange value for value to navigate what

is coming. Project Icebreaker run by Bank for International Settlements (BIS) – one-world currency completely centralized and micro-managed global economy controlled by faceless unelected bureaucracies – does not come under the jurisdiction of any nation state nor intergovernmental organization. The dumbed down and distracted ignorant masses don’t realize all the reported “economic growth” is “created” by government, enabled by The Fed ...and desperately trying to prop-up a corrupt tottering empire in its final death throes.” Jim Quinn.

“There are two primary tools that various failing regimes will always use to distort the true conditions of the economy: Debt and Inflation. In the case of America today, we are experiencing both problems simultaneously and this has made certain economic indicators appear healthy when they are, in fact, highly unstable. The average American knows this is the case because they see the effects daily ...Another factor that creates a bubble is the reality that government spending is actually included in the calculation of GDP.” Brandon Smith.

Invisible rulers of Washington exercise their power behind the scenes (shadow-government / blackbudget) without any accountability (dangerous way of making decisions); USA II-Constitution – corrective action. Shadow-government is a separate secret-government that operates-outside the USA Constitution hiding in plain sight: Federal Reserve (economy); CIA (military); Deep-State (bureaucracy-engine). Rogue-CIA classifies and withholds documentation paralyzing USA Congress legal authority to control CIA through its budget. CIA-Contractors in violation of Non-delegation Doctrine, without accountability. The USA President has the power to suspend the USA Constitution and the Bill of Rights in a real or perceived emergency, these dictatorial powers are an erosion of individual rights. Alpha Gen threat of being capture in perpetuity by transhumanism. The crime against humanity (loss of autonomy, freedom, and privacy) will be visible after 2030. The antithesis for transhumanism is autonomy and privacy – the principle of non-maleficence (the possibility of future harm) ethical conflict – due to that autonomy can be override with incoming data manipulating the individual action. These brain-reading technology interfere with your mental privacy (inner sanctum) with no neuro-technology regulations neither neuro-ethical design (non-invasive methods). To read your mind from your neurons and translate-them into words in real time. Also, existential crisis between mind and machine due to the hybrid reality.

May YHVH have mercy on them and forgive-us such abomination.” Allan Echavarria Diaz.

“The heart and the brain quantic interaction.” Cengiz Mordeniz. The heart generates rhythmic electromagnetic field (EM) – mechanism for how we can ‘feel’ or sense another person’s presence and emotional state – and stability of our physiological systems. If the neural systems are destabilizes by trauma, then, become unstable emotions – Positive emotions enhances synchronization of neurological activity and improves the cognitive functions (rational thought).

Psycho-physiological coherence (focus and attention) – encompassing bio-physical phenomena such entrainment, synchronization, and resonance – energetic impact of human consciousness communication, and the mind-body connection.

LORD GOD created mankind (Anatomical Modern Humans) in HIS own Image – Anatomical Position (5-universal points: head, arms and legs). Male and female are YHVH-creation architecture, energy-Soul. LORD GOD don't have gender because become Most High GOD Photon-Hive – Zero-Point ...No Time-Space but Energy Momentum – Benevolent-Omnipotent!

Consciousness as quantum wave of light, and photons as particle. Photon-particle of electromagnetic radiation (EMR), are waves of electromagnetic (EM) field propagating through space. Linearly polarized sinusoidal electromagnetic wave: synchronized oscillations of electric and magnetic fields. Electromagnetic Spectrum: frequency of oscillation / wavelength. EM-near-field waves (Homo-sapiens) carry energy, momentum/angular momentum – impart those quantities to interacting matter, away from source particle – completely independent of both transmitter and receiver (autonomy & free will). EMR-far-field waves (YHVH), electromagnetic radiation without affects them, causes them to be independent in the sense of their existence and their energy – EM radiation power-density fade with distance but EMR's conservation of energy. Researchable only by universal consciousness (wave of light), faster than laser – Biometric resonance / Entrainment frequencies coupling external electromagnetic fields. The electromagnetic fields of light traveling in linear medium do not get affected by vacuum but crystals (non-linear medium) interactions between light and static electric, magnetic fields occur (tensor) – superposition of more than two waves resulting new-wave pattern (reality) – opposite directions cause destructive interference (quantum behavior to decay). Anatomically Modern Humans – are result of forethought intentional fusion with no evolutionary history – Mutations in Chromosome-7 FOXP2 & Chromosome-2 genetic modifications (intelligent form of life). Human beings are frequencies: Schuman Resonance Earth Frequency 7.83Hz & Human Alpha Waves/Brain Frequency (immune system) 7.83Hz. Human body cells communicate using electromagnetic frequencies, the brain emits frequencies – the brain cannot distinguish between natural light (visible light frequency) and man-made frequencies – electromagnetic low frequency (ELF) induce Pineal Gland suppressing the synthesis of Melatonin (prompt to disease).

Indignation: when acknowledge subjugation to globalist-elite supremacy – must break the chains of the “status quo” to rebirth humanism unto collectively exhaustive making-decision (Transhumanism-threat). Homo-sapiens' nature-welfare intersection with technology and modern science have inbred-unnaturally, the infusion is not from the breath-of-Life. To a large degree shadow the essence of main character of the creation – ‘Homo-sapiens' Soul’ – capacity for action (sacred virtue). Historic period of time where Alpha Gen depends on our endurance, and courage to defend their freedom and pursuit of happiness. Average people spurring new ideas to achieve synchronize movements through creative communications, promoting peace and prosperity owe to future generations.

Innate-biological early-warning system: Pineal Gland (retinal tissue composed of photo-receptor cells-vitreous fluid-wired to the visual-cortex) & Cognitive Psychology – Intuition (mind's ability to

Torsional radiation cannot be shielded, weak torsional influence can put you to sleep, medium intensity 'erase memory' and high intensity destroy brain and body. Psychological impact on human behavior, emotional instability and anxiety. The terrible repression of psychiatric diagnosis

United States Government Policy and Supporting Positions – about 8,000 jobs in the US government with an emphasis on the executive branch – open to political appointment and not subject to a competitive process.

Global Depression 2024 & USA Stagflation: Crisis of catastrophic proportions the dramatic end of this boom-and-bust cycle – With the liquidation of mal-investments, the burst phase emerges – Likely result in a recession. Economic system that has enriched the progressive political class at the expense of the productive sectors of the economy – violently preserve itself at the expense of every one else. In a normal economy, using money in exchange is highly efficient. The 'dollarization' phenomenon to exchange their domestic money for dollars – and agreed to repay their debts in dollars. The tax-to-GDP ratio is used to determine how well a country's government directs its economic resources – during severe economic downturns, the ratio can shift dramatically – it indicates how much of a nation's gross domestic product goes into government funding. War-economy?

German Hyperinflation – stabilized the 'paper-mark' against the US Dollar, through foreign exchange market interventions – made 4.2 trillion paper-mark equal to one US Dollar and one trillion paper-mark equal to one Rentenmark, the exchange rate was 4.2 Rentenmark for one US Dollar.

Rising unemployment is the consequence of failing production – possibility of both inflation, stagflation. Money-supply contraction measure of economic activity and an indicator of coming recession. Yield-curved inverted. Government spending (waste) recorded as productivity and output replacing private wealth, stagnation. Interest on the debt will top \$1 trillion in 2024 – wealth transfer from taxpayers to bond holders (risk of holding US debt) – which produces no benefit for poor average American citizens. Irresponsible Appropriations si not incompetence but treason. Each citizen living and acting at own cost, not complacency, corrective action.

How these beings have historically interacted with man? ...Science lessons – about interstellar travel – actual method another civilization is used to travel from another star system to the planet Earth ...[C]How is it possible to cross vast expanses of space without exceeding the speed of light? Space-time – capability of generating an intense gravitational field the fastest way from point A to B – distort or warp or bend the space-time between point A and B ...the more intense the gravitational field the greater the distortion of space-time and shorter the distance – gravity distorts time by virtue of the fact that if we take two identical atomic-clocks and keep one at sea level and take the other one up to a high altitude when we bring them both back together they reflect different times – and then stop generating the gravitational field allowing space-time to return to its natural form in this manner we can travel great distances with little linear movement ...[C] generating an intense gravitational field distorting space-time and allowing you to cross many light years of space in little or no time and without traveling in a linear mode near the speed of light ...to access and amplify a gravitational field – the wave theory (gravity is a wave) – theory of gravitons which are alleged subatomic particles that perform as gravity ...Well gravity is a wave – gravity A is the wave that you need to access and amplify to enable you to cause space-time distortion for interstellar travel ...Remember gravity A works on an atomic scale and gravity B works on a stellar or planetary level – gravity A is a much stronger force than gravity B – the two main factors which determine what residual matter remains after the creation of a solar system are the amount of electromagnetic energy and the

amount of mass present during the solar system's creation ...and it has amplitude wavelength and frequency just like any other wave in the electromagnetic spectrum once you can access the gravity A wave you can amplify it ...[A] to generate a gravitational you must have access to an element which is heavy enough for the gravity A wave to extend past the perimeter of the atom, then you can access and amplify it for space-time distortion ...[B] the power source is a reactor which uses this Element 115 as its fuel – and is bombarded with protons in a small particle accelerator – becomes an atom of Element 116 ...it radiates anti-matter – reacts and completely converts to energy – this reaction is converted into electrical energy ...flying saucer – lower level is where the three gravity amplifiers and amplifier guides are located – the reactor is located directly above the three gravity amplifiers on the center level ...when a disc is near another source of gravity like Earth the gravity A wave which propagates outward from the disc is phase shifted into the gravity B wave which propagates outward from the Earth and this creates lift. The gravity amplifiers of the disc can be focused independently – the gravitational field around the disc increases the distortion of space-time around the disc also increases – taking place 360 degrees around the disc ...Project Galileo dealt with gravity propulsion – scientific and technological judgments from a knowledge base that is not available to the general public – mostly relating to Aliens and Alien technology...”
