Political Platform 2024 Vol.6

2024 – 2031 Tribulation.

Mankind Renaissance: 1 Natural Law.

The law of nature is unchangeable thereby no man loseth the right of itself, but only to such as consent unto them – without hurtful or grievous in the performance above common people. Inform mankind what the law is and direct them in their judgment. The spiritual man propensity of nature of GOD, subservient to His Will – to administer ‘Upright Justice’ according to equity of man’s conscience – The light shining forth through the knowledge of the truth to those being incapable of governing themselves. The intention of nature by conjunction of male and female, is generation – every father is bound by the Law of Nature to do his best for the preservation of his family – the folly or imbecility proceeds from some error in generation or education. Ignorant, vicious, or cowardly are not equal in natural or acquired virtues, nor equally useful to the societies – they cannot equally provide for the common good in their constitution and continuance – not equally endowed with these virtues that render liberty safe, prosperous, and happy. That equality which is just among equals. Virtues and abilities which render some more fit than others, for the performance of their duties, and the work intended in civil society (executed by such as excel in those virtues).

Any man may boldly exercise his malice and cruelty in society – it will be punishment sufficient for man to expect obedience. What laws are upright and what are evil? Whether virtue be exalted or suppressed – whether he that bears the sword be a praise to those that do well, and terror to those that do evil. Doing mischief with assurance of perpetual impunity, odious extremity of justifying themselves belongs to fools – owe an account of their actions. But, where is the consequence?

That there is a law set to all mankind which none might transgress, and which put the examination of all those matters which from the beginning been common to all mankind (undeniable truths). The measure of understanding how to employ equality and justice – capacity of judging without favouring one more than another – to prevent mischiefs and people from ruin. The error of not observing such matters as require the highest knowledge or unable to govern themselves are slaves by natural selection. Those of weaker minds and lower civilization are destined to hereditary status of servitude (loss generation). But if they inherit slavery, no wisdom can be use to them, but all depend on the wicked soever they be. Out of the heart proceed evil thoughts, murders, thefts – wickedness of man corrupted nature – destructive corruptions into which we have fallen. Impossible for a corrupted people to set-up good governance or tyranny to be introduced wick is directly opposite to stability, unable to perform the duty.

The liberty of man in society, is to be under no other legislative power, but that established by consent, in the common-wealth (by the law of nature and reason, the power of the whole). And thus every man, by consenting puts himself under an obligation to society. And were it not for the

corruption and viciousness of degenerate men should separate from community (to punish the crimes against established law).

Mankind Renaissance: 2 Government Reform.

“When once a republic is corrupted, there is no possibility of remedying any of the growing evils, but by removing the corruption and restoring its lost principles...” Thomas Jefferson. “...Not to overthrow the Constitution but to overthrow the men who pervert the Constitution.” Abraham Lincoln. “...that the Constitution be preserved ...that the Republic receive no damage.” John Dickinson. “They saw all the consequences in the principle, and they avoided the consequences by denying the principle.” James Madison. “...by reshaping the battlefield.” Sun Tzu. “...the winner writes history...” Napoleon.

A realm where human minds interacted through increasingly complex social networks – ‘Omega Point’ where the total convergence of collective human consciousness would unify – Creating a Collective Human Consciousness ...What is really taking place is a game of bait and switch – Whether the evolving bio-digital surveillance paradigm is called the Fourth Industrial Revolution (4IR), Great Reset, Agenda 2030, or Humanity 2.0 – Smart technology and the Internet of Things (IoT) bring the all-seeing eye of technocratic overlords into the private spaces of a growing number of residences and businesses ...Windows Recall – a photographic memory – remember and understand everything, you do on your computer ...Internet of Bodies (IoB) devices exist to monitor and transmit all personal data to the Internet [Human Body Activity Surveillance & Crypto – Microsoft WO/2020/060606A1] – AI, Biometrics and Digital-ID [Mark of the Beast – Warning] ...Where the ultimate goal is to merge man with machine – meshing our minds together into a ‘hive consciousness’ ...neuro-cognitive science that has been weaponized – ‘Ghosts in the Machine’ ...”

High-velocity burts of debris, or “squibs” – indicative of controlled demolition – were ejected from point-like sources in WTC1 and WTC2, as many as 20 to 30 stories below the collapse front ...Massive steel beams and other matter hurtling sideways out of WTC collapsing building – and the quantity of shattered steel thrown out ahead of the dust clouds – 12 foot sections of perimeter columns flying out ahead of the dust cloud in what is very clear an explosive event ...a cross beam weighing up to 300 tons embedded into the American Express building after being hurled for 390 feet out of a WTC building ...NIST also provide no explanation for the ‘midair pulverization’ of most of the towers’ concrete, the near-total dismemberment of their steel frames, or the ejection of those materials up to 150 meters – from river to river there was dust powdered 2 to 3 inches thick the concrete was just pulverized ...The Detonation of Cutting Charges? Molten metal – some beams pulled from the wreckage are still red hot more than 7 weeks after the attack ...why NIST excluded the evidence of melting steel, why is this

not included ...Why do FEMA and NIST deny its existence? Kerosene is not capable of melting steel nor iron ...destruction and removal of evidence – suspicion arose when NIST refused to release the data input used for their computer simulations for expert scrutiny ...thermite, an incendiary that burns unusually hot at approximately 4500 degrees Fahrenheit – which provide their own fuel and oxidant and are not deterred by water, dust, or chemical suppressants – likely a form of super-thermite – that combine nanometals such as nanoaluminum with metal oxides such as iron oxide ...Active Thermitic Material Discovered in Dust from 9/11 World Trade Center Catastrophe ...The Smoking Gun: Microspheres carry signature of Thermate ...any unbiased rational investigator could only conclude that a Boeing 757 did not fly into the Pentagon as alleged ...a most troublesome – Americans appear to be involved in the most heinous conspiracy in our country's history ...crash site void of airplane parts – penetrated numerous concrete walls – it was obviously a missile..."
