the people in Donetsk, Lugansk, Zaporozhye and Kherson will not be discussed. The decision has been made, and Russia will not betray it. Kiev's current authorities should respect this free expression of the people's will; there is no other way. This is the only way to peace ... We will defend our land with all the forces and resources we have, and we will do everything we can to ensure the safety of our people. This is the great liberating mission of our nation ... We remember the horrible 1990s, hungry, cold, and hopeless. But Russia remained standing, came alone, grew stronger and occupied its rightful place in the world ... The unipolar world is inherently anti-democratic ... The United States is the only country in the world that has used nuclear weapons twice ... "... nearly every war that has started in the past 50 years has been a result of media lies. The media could have stopped it if they'd searched deep enough, if they hadn't reprinted government propaganda, they could have stopped it. But what does that mean? That means basically populations don't like wars and populations have to be fooled into wars. Populations don't willingly and with open eyes go into war. So, if we have a good media environment, then you also have a peaceful environment. Our number one enemy is ignorance, and I believe that is the number one enemy of everyone. Not understanding what is actually going on in our world. When you start to understand that you can make effective decisions. Now, the question is: who is promoting ignorance? Those organizations who try to keep things secret and those organizations which distort true information to make it false and misrepresent it. In this latter category it is bad media. It really is my opinion that the media in general are so bad, we have to question whether the world would be better off without them altogether. There's some very, very fine journalists and we work with many of them, and some fine media organizations. But the vast majority are awful. They are so distortive to how the world actually is." Battle of the Trench (627) ‘war is deceit’ & Kab bin al-Ashruf offended Muhammad (PBUH), ‘vis-à-vis infidels’ with Kab’s head on hand latter cried ‘Allah Akbar!’ (God is great!). Doctrine of Abrogation (verses revealed later to Muhammad (PBUH) take precedence over the earlier ones) supported by Qur’an 2:106; balance peaceful and tolerant v. violent verses quandary, whenever there is a contradiction.
